CLACKMANNANSHIRE COUNCIL NEW START TEACHERS/TERM TIME STAFF COMMENCING AFTER START OF TERM

Where a new teacher commences with the Council after the start of term, salary will be calculated based on the working days remaining in the session. (as per Clackmannanshire Councils agreed School calendar). We will identify the months where we can pay 1/12th of your salary as normal (dependant on working days) however your salary for the first month and for August of the term will normally be lower. An example is provided below.

Where a teacher is commencing having been engaged with another local authority and there is no break in their service the salary received from their former employer and Clackmannanshire Council should equate to the annual salary for the post.
