

Agenda

Networking and catching up

At the start of the meeting, we will have a chance to connect up with colleagues in small breakout groups, and get to know them a bit better.

Experiences of ITE

The meeting will focus on discussing members experiences of ITE, and any reasonable adjustments they received during that time, with a view for the EIS to work with ITE providers and local authorities to be more accessible for disabled students.

175th Anniversary film – Disability

This section will remind members of the brilliant film created by disabled members last year. We will gather initial ideas and thoughts for a new short (3 minute) video being created as part of the EIS' 175th Anniversary films, on the topic of disability and disabled members.

Space for neurodivergent members

Any member who identifies as neurodivergent is welcome to stay on the call, to discuss any issues arising from the meeting that specifically affect neurodivergent members.
