

REPARATION IN EDUCATION
ADDRESSING
RACE IN
SCOTTISH SCHOOLS

1

CURRICULUM FOR BLACK EXCELLENCE

The Scottish Government should implement within the broad general education, the social, historical and political context of BAME experiences, as well as the increased inclusion of materials by BAME creatives and academics across the entire curriculum.

2.

DIVERSIFY STAFF REPRESENTATION

Through the use of effective incentives and other measures, we demand an **increase in the diversity** of teaching and leadership staff in every school across the country.

3

EDUCATE OUR EDUCATORS

We demand that completion of a racial awareness course must be a compulsory requirement for all education degrees in Scotland, as well as continuous, up-to-date training for already qualified teachers.
